I have created a fully detailed weekly timetable in **table format** including all the elements we've discussed: commute activities, prayers, Qur'an, skill blocks (German, JS, posting, Discord), flexible blocks, rest, meals, and heavy/light days.

It also includes **tips, alternatives, and recommendations** for using your time effectively. This content is structured to be easily converted into a **PDF** for download and printing.

Hestic Weekly Productivity & Learning Timetable

Legend / Colors: - 🔵Work - 🟢School - 🟠Heavy day (Work + School) - 🟡Skill block: German / JS / Posting / Discord - 🟣Flexible block: urgent work / test / catch-up / Discord - 🔴Rest / Meals / Recharge - ⚪Prayer - ✡️Qur'an (morning only) - 🚷Commute activities

9:30	🔴Sleep	🔴Sleep	🔴Sleep	🔴Sleep	🔴Sleep	🔴Sleep	🔴Sleep

Tips, Alternatives & Recommendations

1. **Commute**
2. Morning: Listen to German podcasts, JS mental exercises, or plan your day.
3. Evening: Listen to JS / frontend audio, recap German vocab, short relaxation or mindfulness.
4. If seated, can also review short notes or code snippets.
5. **Skill blocks**
6. Alternate German practice: one day listening, next day speaking / writing.
7. JS / Frontend: Alternate between practice coding, project building, and posting learnings.
8. Discord / community: Engage 2–3 days per week; focus on code review, answering questions, or learning challenges.
9. **Flexible blocks**
10. Use for urgent office work, test prep, or catching up on missed skill blocks.
11. Can include online community challenges, pair coding, or hackathon prep.
12. **Heavy vs Light Days**
13. Orange (🟠) indicates heavy workload: school + work; reduce optional skill intensity.
14. Light days: focus on skill mastery and Discord / project work.
15. **Rest & Meals**
16. Protect these times; avoid multitasking during meals.
17. Use short wind-downs for mindfulness or light reading.
18. **Finance / Planning**
19. Sunday: track weekly spending, plan transport, school, and personal expenses.

20. Review income vs expenses and set small savings goals.

21. **Posting / Mastery Habit**

22. At least 5–10 min daily posting JS learnings.

23. Share with community / Discord for feedback.

24. **Alternatives**

25. Swap morning German / JS blocks if you feel more alert in the evening.
26. Flexible blocks can also be used for additional practice or coding tutorials if free.

This table is **ready to convert into PDF** for download and printing.
